THE UNEXPECTED

HAPPENED IN GRAINS.

WHEAT, AFTER A LOWER START, IMPROVED IN PRICE.

Corn Made a Fairly Strong Start, and, Like Wheat, Advanced Sharply Later in the Day.

Office Republic, Wednesday, May 23, 180

The unexpected happened in grain today. There was nothing developed during the fore part of the session to indicate what was to take place later, and the sudden and unlooked-for spurt that marked the closing half hour, and which sent prices up sharply, was in the nature of a surprise to the trade. While no great impression was made on prices this morning the tendency of the different markets after they got fairly started was toward a higher level and a fairly strong undertone was shown. The situation early was quiet and uneventful, traders apparently heldles of and awaiting more definite develops upon which to base their future ac-

These were very slow in coming and for some considerable time after the opening there was little that was interesting in the actions of the two principal Extra esting in the actions of the two pincets.

Speculative markets. During this period Less and medium pit operations were small, and there were times when hardly a trader could be tound times when hardly a trader could be tound in the pit, so extremely quiet was speculation. The murkets, however, exhibited a great medical consideration of strength, such recessions as took place being small and cessions as took place being small and considerations. This state of afterward to the constant of fairs continued until near the close, when there was a sudden flare-up an an out-barst of builtsh enthusiasm, dus to some very strong advices and a sharp bulge that landed prices at the top and closed them at or near there.

The wheat market at this point this

morning displayed no snap or common displayed no snap of the form the common displayed not followed the doing of the doing sellers asking \$5.50 but no displayed not common displ the actual close was within a small frac-tion of the lest prices of the day. Th initial domestic and foreign advices

The thick of the lest prices of the builts, but they did not have any material effect upon values, the market being well supported by buying orders which were sufficient to about clean up all the early offerings. The unfavorable advices consisted of rains. The unfavorable advices consisted of rains which section has been the section of the section o badly needing moisture for some time, and indifferent and quiet cables, with Liverpool reported 3rd off and London unchanged. The rains and cables started a few weak kneed trains and cables started a few weak are lower, at 5 bc, from which there was 2 turther lot-down to 5rd. Then came reports of renewed complaints of damage to the South Rossian crop and leas encuraging advices concerning that of France, which were not be confirmed by a Paris cable quoting an advance in that market equal to 3rd, flour being reported as to 50 centimes higher. The dovernment weekly report did not indicate that the situation was in any way alarming in spring wheat, but it did partly confirm the commagnes wrought by the fly in Missouri and Hilmos. There was some good blying at the define that characterized the send-off here and it became so trigent when the Paris cable was received that July at once advanced to 6 bg and Sept. brought be. There was little encouragement to be gotten out of other Confinential cables, nestine Bertin not Antiweers showing any fears over crop conditions and remaining unchanged, while Buda-Peeth was reported it lower. Liverpool improved some, but closed only 3rd better for the day. The export clearances for the day were encouraging at 58,000 but. On reports of rains in North Dakota and Minnessolis, where they have been badly needed, there was a slight weakening off from the top, but as there was no pressure to sell, and the buils stood ready to buy, it was of no significance.

Louis fine the day were encouraging at 58,000 but. On reports of rains in North Dakota and Minnessolis, where they have been badly needed, there was a slight weakening off from the top, but as there was no pressure to sell, and the buils stood ready to buy, it was of no significance.

Louis fine the day were encouraging at 58,000 but. On the contract of the contract of the contract of the contract of the c badly needing moisture for some time, and indifferent and quiet cables, with Liverpool

tions late in the day, and added fuel to the bull fires. There was also some cash information that gave them great help, big business being reported at Minneapolis, and 150, 590 but taken at Chicago, but only I loads for export. If anything, St. Louis was more bullish than Chicago, which was indicated by the way they took hold and bid July up to 68c, at which it sold, while the close was 560 at higher for the day at 57 kg/98c buyers.

Sont sold and closed &c up at 85ke Ave.

Ever and Butter Quotations. Sept. sold and closed \$4c up at 689c. Aug. was nominally \$4c better at 679c and May blo higher at 769c.

There were bullish advices enough this

Sept. soid and closed see up at only and says, was normally see better at 65g, and May lee higher at 70g.
